

Certificate

Certificate number: 2013-007

Certified by EY CertifyPoint since: September 27, 2010

Based on certification examination in conformity with defined requirements in ISO/IEC 17021-1:2015 and ISO/IEC 27006:2015/A1:2020, the Information Security Management System as defined and implemented by

Workday, Inc.*

located in Pleasanton, California, United States of America is compliant with the requirements as stated in the standard:

ISO/IEC 27001:2013

Issue date of certificate: May 31, 2023

Re-issue date of certificate: May 23, 2024

Expiration date of certificate: October 31, 2025

Last certification cycle expiration date: July 7, 2025

EY CertifyPoint will, according to the certification agreement dated March 22, 2022, perform surveillance audits and acknowledge the certificate until the expiration date noted above.

**The certification is applicable for the assets, services and locations as described in the scoping section at the back of this certificate, with regard to the specific requirements for information security as stated in the Statement of Applicability, version 2023.02, dated November 3, 2023.*

The boundaries of the Workday ISMS scope explicitly excluded:

- ▶ Hosting locations: Workday offers customers the option of running Applications in a public cloud environment or co-location data centers to host in-scope services. Workday utilizes AWS and Azure as IaaS providers and offers co-location data centers (United States, Canada, Netherlands, Ireland), for those customers who do not choose public cloud hosting.
- ▶ Processes and controls related to physical security and environmental safeguards that are owned and operated by the third party co-location data center providers hosting the in-scope services and environments.
- ▶ The following processes and controls specifically related to the public cloud environment that are owned and operated by Amazon Web Services (AWS), which hosts the in-scope services and environments:

This scope is only valid in connection with certificate 2013-007.

Workday, Inc.

Scope for certificate 2013-007

- Physical security
 - Environmental safeguards
 - Media disposal of physical assets
 - Logical access for the infrastructure and virtualization layers
 - Change management for the infrastructure and virtualization layers
 - Monitoring for the infrastructure and virtualization layers
- ▶ Innovation Services offerings (unless explicitly included in the services above)

The Information Security Management System mentioned in the above scope is restricted as defined in "Integrated ISMS_PIMS Handbook" version v2023.01, dated November 3, 2023.

This scope is only valid in connection with certificate 2013-007.
